ABOUT ME

George Siler is a multidisciplinary designer with a passion for building user friendly digital experiences. I seek to find where design can more positively affect change in all things.

EDUCATION

Bachelor of Arts | Design

Western Washington University
2014 - 2017

SKILLS

- Web Design
- Interaction Design
- HTML & CSS
- System Design
- Creative Problem Solving
- Development Collaboration
- Print Layout
- Project Management

EXPERIENCE

Designer | Faithlife

Feb 2018 - Present

As a Designer at Faithlife I am responsible for supporting Faithlife's design, marketing, and ecommerce design needs to ensure the end product meets the consumer's needs. I am able to apply design thinking to problem solving, and will work collaboratively to present work with sound strategic reasoning and strong creative rationale. I work to Create satisfying and compelling experiences on our sites, with a focus on reshaping the customer experience to maximize conversions and better empower our customers to become users.

Freelance Designer

Jun 2016 - Present

From illustration to web design and branding, doing freelance work has given me the opportunity to invest and grow in myself by taking on contract work that pushes me outside of the confines of my daily work. Through freelance design I am able to continue to hone my craft and help facilitate new endeavors with creative problem solving.
